INSTRUCTIONS

- 1. First choose a table moderator and time-keeper
- 2. Then please review the 10 principles outlined in the attached hand-out.
- ➤ How well will the proposed guiding principles help ensure that the siting process is fair and appropriate?
- ➤Why? Why not?
- ➤ What additions and/or revisions, if any, should be made?
- ➤ Are there any critical gaps?
- 3. Keeping these questions in mind, please rate each principle using the following key:
- ✓: This principle will help ensure the siting process is fair and appropriate
- **★**: I am concerned that this principle, as presented, will NOT help ensure the siting process is fair and appropriate
- ?: I don't understand / am not sure about this principle
- 4. Don't forget to jot down your suggested revisions/additions!

Guiding Principles: MODERATOR Instructions

OBJECTIVE: to obtain feedback on the proposed guiding principles, with a view to identifying those that are widely accepted (✓), those which raise concerns (★) and those which require further clarification (?); and to identify ideas for strengthening the guiding principles.

DISCUSSION QUESTIONS:

- ➤ How well will the proposed guiding principles help ensure that the siting process is **fair and appropriate**?
- ➤ Why? Why not?
- ➤ What additions and/or revisions, if any, should be made?
- ➤ Are there any critical gaps?

INSTRUCTIONS

STEP 1: 5 minutes

- ➤ Invite participant to refer to the Guiding Principles handout
- ➤ Review the instructions provided on the Participant Worksheet
- ➤ Ask participants to take 5 minutes to silently assess each guiding principle, and to complete the Participant Worksheet as directed
- ➤ Remind participants to also write down their suggested revisions/additions to the formulation of the principles acknowledge that they might not have suggestions for each principle

Guiding Principles: MODERATOR Instructions

INSTRUCTIONS (CONTINUED)

STEP 2: 20 minutes

- After 5 minutes (or sooner, if everyone appears to have completed the task), initiate a round-table review of participants' assessment of each principle
- ➤ Begin with principle 1 and record, on the Table Summary Worksheet, how each person rated this principle (✓, ※, ?)
- Record any questions/concerns/revisions/additions brought forward. Encourage people not to repeat ideas but to bring forward new ideas only
- Don't forget to add your own assessment and ideas
- Repeat the process with each of the remaining principles

STEP 3: 10 minutes

- ➤ Tally the final "rating" for each principle, using the **Table Summary Worksheet**
- Review the final tally with your table, in preparation for you table's report back to plenary
- The Note-taker will come around to record your table's final tally ratings to total with other tables
- ➤ The Facilitator will collect Participant Worksheets and Table Summary Worksheet at the end of the exercise

Unpacking the 9 Steps: MODERATOR Instructions

OBJECTIVE: to review / refine / strengthen the 9 steps of the proposed site selection process individually and collectively.

DISCUSSION QUESTIONS:

- ➤ Is this 9-step siting process fair and appropriate? Why? Why not?
- ➤ Are there any critical elements and considerations missing or not adequately addressed?
- ➤ How might we strengthen each of the individual steps and/or the process as a whole to make it as fair and appropriate as possible?

INSTRUCTIONS:

STEP 1: 8 minutes

- ➤ Invite participants to refer to the Moving Forward Together Summary Proposed Process for Selecting a Site
- At a Glance handout
- ➤ Ask participants to take 5-7 minutes to silently assess each step, and to record their questions/concerns OR suggested refinements on post-it notes provided at the table.

IMPORTANT:

- ! 1 thought per sheet
- ! Use large and legible print use Sharpie markers provided
- ! Indicate which Step your comment relates to, or whether it relates to the "Process as a whole"
- ! If your idea relates to multiple steps, write a copy of it on another post-it for each step to which it applies

INSTRUCTIONS (CONTINUED)

STEP 2: 30 minutes

- ➤ After 5-7 minutes (or sooner, if everyone appears to have completed the task), initiate a round-table review of participants' thoughts on each step, starting with Step 1
 - ! You will be working through the 9 steps sequentially.
 - ! Emphasis should be on Steps #2 to #7 (address Steps #8 and #9 only if time permits)
- ➤ Participants place their Step 1 post-its in the middle of the table:
 - ! Ask one volunteer to present his/her idea
 - ! To avoid repetition, ask others to cluster similar ideas together OR add checkmarks to a core idea that adequately represents other similar ones
 - ! Repeat until all Step 1 ideas have been reviewed
 - ! Put aside the group's "final cut" of ideas for Step 1
- Repeat the process with each of the remaining steps

STEP 3: 15 minutes

- Review and discuss the group's "final cut" of ideas/actions
- ➤ If necessary/helpful, rewrite post-its to better encapsulate a cluster of similar ideas OR to clarify/strengthen an idea to better reflect the group's discussion

STEP 4: 5 minutes ("Switch")

- ➤ When the "switch" is called, moderator with 2-3 volunteers place the table's post-Its on Activity 1 wall under the appropriate Step # title card (i.e. Step#1, Step#2, Step#3 and so on)
- ➤ If you are part of Round 2, aim to cluster your ideas with similar ones already on the wall where obvious

The NWMO initiates the siting process

For communities who would like to learn more, an initial screening is conducted

For interested communities, a preliminary assessment of potential suitability is conducted

For interested communities, potentially affected surrounding communities are engaged and detailed site evaluations are completed

Communities with confirmed suitable sites decide whether they are willing to accept the project and negotiate the terms and conditions of a formal agreement to host the facility with the NWMO

The NWMO and the community with the preferred site enter into a formal agreement to host the project

A centre of expertise is established, and construction and operation of an underground demonstration facility proceeds

Regulatory authorities review the safety of the project and, if all requirements are satisfied, give their approvals to proceed

Construction and operation of the facility

Process as a whole

Station A1 Informed & Willing Communities

Station A2 Informed & Willing Communities

Supporting communities to become <u>well informed</u> of the advantages and challenges of becoming a host site

Helping the community to demonstrate that those living in the local area are willing to become a host site

Station B1 Community Well-Being

Station B2 Community Well-Being

Consideration of social, economic and cultural effects

Enhancing the community's / region's long-term sustainability

Availability of physical and social infrastructure

Avoiding ecologically sensitive areas and locally significant features

Minimizing the effects of transportation
